

# Welcome to Inspira Health Partners (IHP) Physician Hospital Organization (PHO)

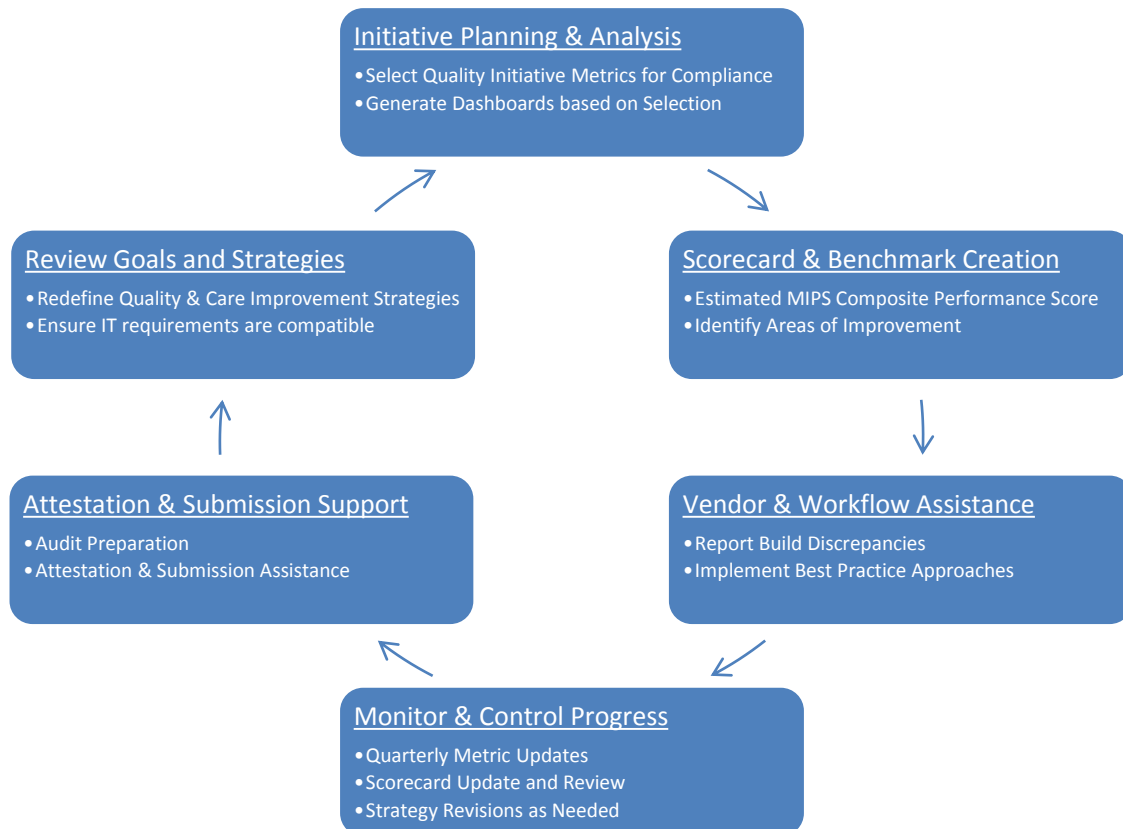

Inspira Health Partner’s (IHP) Physician Hospital Organization (PHO) is a physician-led and Inspira supported clinical integration network that allows our hospitals and physicians to work cooperatively toward accomplishing the goals of meeting payer needs, strengthening market preference with consumers, and providing physicians with the tools to best manage care while maintaining profitability in the future. When the PHO succeeds in its mission of providing coordinated care to patients, especially the chronically ill, through delivering high-quality care and spending healthcare dollars more wisely, its members share in the saving by potentially receiving better reimbursement rates.

Our Practice System Transformation Specialists are eager to be actively assisting your Practice! They will accomplish this through their Two-Phase Process:

## Phase 1 – Introduction & Evaluation

## Phase 2 – Implementation & Support

One of the methods the executive committee intends on accomplishing IHP's goal is through the monitoring of key performance indicators across the Physician Hospital Organization.

PHO Membership benefits and services at no additional charge include:

Practice Management Support

Quality Initiative Assistance

Clinical Decision Support
