

'Delivering High Quality Care One Patient at a Time'

Board Nominations & Election—Your Voice Counts!

Nominations are open for physician seats on the Inspira Health Partners Board of Managers.

We would like to thank the following managers whose terms are expiring on 12/31/18:

- **Dr. David Galetto**, primary care class, completing two consecutive terms
- **Dr. Lori Talbot**, primary care class, completing two consecutive terms
- **Dr. Jack Kanoff**, specialty care class, completing one consecutive term

The board has two (2) primary care class seats to be elected by the primary care class members and one (1) specialty care class seat to be elected by the specialty care class members for a two-year term from 1/1/19-12/31/21. **All IHP physician members are eligible to nominate candidates for these Board Manager positions.**

All candidates must be current participating IHP members. No two of the seven physician board managers may be employed by the same physician practice group. A physician member must receive at least two nominations to be on the election ballot and a member may not nominate himself or herself.

A Survey Monkey has been circulated to the email address on file with IHP for each physician member. Nominations are due by October 24. Once the list of nominees is finalized, an election ballot will be circulated via a separate Survey Monkey email.

IHP Primary Care Fall Gathering

A gathering for primary care members of IHP was held on October 9 at Filomena Lakeview Restaurant in Deptford. After recognizing our members on the Board, Finance, and Clinical Consensus Committees, the group heard a “State of the Union” update and results from the Horizon Shared Savings Program 2017 Performance Year were announced. Shared savings of \$508,455 has been allocated to primary care members in the amount of \$7,106 each (for a full year of participation in IHP in 2017). The evening concluded with three physicians sharing strategies and initiatives undertaken by their practices to deliver low cost, high quality care. Thank you to Dr. Szgalsky (Inspira Medical Group), Dr. Galetto (Cumberland Internal Medicine), and Dr. Narvel (ExcelCare Alliance) for your insights!

Thank you to those physicians who were able to join us. For those who were unable to attend, you will be contacted to arrange for receipt of your check.

HQEP Quality & Efficiency Metrics for 2019

Our Service Line Councils and Chief Medical Officers have been busy engaging with physician stakeholders to develop quality and efficiency metrics for the HQEP program. The Clinical Consensus Committee and Board of IHP approved measures for 2019 which can be found on the IHP website:
