

TIP SHEET

Exclusion: Patient from Measure(s)

Definitions

Exclusion Criteria: Factors that disqualify patients for the registry.

Measure Exclusion: Indicates that a measure is no longer applicable for a person.

Steps

1. Navigate to the Patient you would like to exclude
2. Select “Make Changes”
3. Select “Measure Exclusion”

4. Select the box next to the Measure(s) you would like to exclude

Current Measures

5. Select “Exclude”

6. Select the reason(s) for your exclusion(s)
7. Fill out the reason(s) for the exclusion(s)
 - a. Single Measure:

- b. Multiple Measures

Takeaways

NOTE: Exclusions are a **REQUEST** and may be approved or denied based on research by Inspira’s Population Health Department. Annotate exclusion reason(s) as detailed as possible to aid in their investigation.
