

TIP SHEET

Exclusion: Patient from Registry

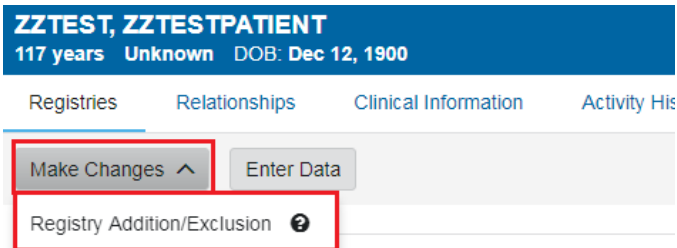

Definitions

Exclusion Criteria: Factors that disqualify patients for the registry.

Registry Addition/Exclusion: Indicates whether a registry is applicable for a person. Excluding a person from a registry will also exclude them from its associated measures.

Steps

1. Navigate to the Patient you would like to exclude
2. Select "Make Changes"
3. Select "Registry Addition/Exclusion"

4. Select "Exclude" next to the Registry you would like to exclude

Current

5. Select the reason for your exclusion
6. Fill out the reason for the exclusion

Edit Registries

You are excluding this person from the **Depression** registry.

Takeaways

NOTE: Exclusions are a **REQUEST** and may be approved or denied based on research by Inspira's Population Health Department. Annotate exclusion reason(s) as detailed as possible to aid in their investigation.
