

OVERVIEW

Scorecards

- Scorecards provide the ability to display Quality Measures spanning multiple Registries that relate to a provider or organization’s quality initiative involvement. For any measure to display a Met% the following criteria is required:
 - **Population** – Attributed Scoreable Persons
 - **Denominator** – Person Mets **both** the measure’s denominator criteria **and** the registry’s criteria the measure falls under
 - **Numerator** – Person Mets **both** the measure’s numerator criteria **and** the registry’s criteria the measure falls under

Measure Met%

Registries & Measures

- Below is a table of the Scorecard Measure and their corresponding Registry:

Comprehensive Adult Wellness	<ul style="list-style-type: none"> • Breast Cancer Screening • Body Mass Index • Colorectal Cancer Screening • Depression Screening
Diabetes	<ul style="list-style-type: none"> • HbA1c < 9% • Eye Exam
Hypertension	<ul style="list-style-type: none"> • Blood Pressure < 140/90 mm Hg
Pediatric Wellness	<ul style="list-style-type: none"> • Depression Screening

REGISTRY AND MEASURE SPECIFICATIONS

Comprehensive Adult Wellness Registry – Persons aged ≥ 18 during the measurement period meeting the following criteria.

Inclusion Criteria:

- ≥ 18 years as of the last day of the measurement period.
- *Outpatient Visit* during the measurement period or prior two measurement periods.
- **OR**
- *Extended Care Visit* during the measurement period or prior two measurement periods.

Exclusion Criteria:

- Person is *Deceased* any time prior to the end of the measurement period.
- Person is in *Hospice Care* during the measurement period.

Breast Cancer Screening – Portion of females in the registry population ≥ 50 and < 75 years with a documented mammogram within 24 months prior to the end the measurement period.

- Denominator: *Females* aged ≥ 50 and < 75 years as of the end of the measurement period.
- Numerator: Documented *mammogram* within 24 months prior to the end of the measurement period
- Exclusion: Person meets one of the following:
 - *Bilateral Mastectomy*
 - *Two Unilateral Mastectomies*

Body Mass Index – Portion of persons in the registry population with a documented Body Mass Index (BMI) result during the measurement period.

- Denominator: All person in the registry population
- Numerator: Documented BMI result during the measurement period.
- Exclusion: *Pregnancy* within 365 days from today's date

Comprehensive Adult Wellness Registry Continued..

Colorectal Cancer Screening – Portion of persons in the registry population ≥ 50 and < 76 years with a colorectal cancer screen during the measurement period.

- Denominator: Persons ≥ 50 and < 76 years as of the end of the measurement period.
- Numerator: Person meets one of the following:
 - *Colonoscopy* within 10 years prior to the end of the measurement period
 - *Sigmoidoscopy* within 5 years prior to the end of the measurement period
 - *Cologuard* within 3 years prior to the end of the measurement period
 - *FOBT/FIT* within the measurement period
- Exclusion: Person meets at least one of the following:
 - Total *Colectomy*
 - Condition of *Colorectal Cancer*

Depression Screening – Portion of persons in the registry population screened for clinical depression during the measurement period.

- Denominator: All person in the registry population
- Numerator: Depression Screening during the measurement period
- Exclusion: Person meets at least one of the following:
 - Diagnosis of *Depression* during the measurement period or prior measurement period.
 - Problem of *Bipolar Disorder* at any time prior to the end of the measurement period

Diabetes Registry – Persons aged ≥ 18 during the measurement period meeting the following criteria.

Inclusion Criteria:

- ≥ 18 years as of the last day of the measurement period.
 - *Outpatient Visit* during the measurement period or prior two measurement periods.
- OR**
- *Extended Care Visit* during the measurement period or prior two measurement periods.
- AND** at least one of the following:
- Active problem of Diabetes Mellitus Type I or Type II
 - HbA1c level $\geq 6.5\%$ in the past two years
 - Started Insulin medication in the past three years
 - Diagnosis of diabetes with fasting plasma glucose > 126 mg/dL in the past two years
 - Started diabetic medication (excluding Insulin, Metformin, and Incretin Mimetic) within the last 18 months prior to the end of the measurement period

Exclusion Criteria:

- Person is *Deceased* at any time prior to the end of the measurement period.
- Person is in *Hospice Care* during the measurement period.

HbA1c $\leq 9.0\%$ – Portion of persons in the registry population whose most recent HbA1c test result was $\leq 9.0\%$ during the current measurement period.

- Denominator: All person in the registry population
- Numerator: Most recent HbA1c level was $\leq 9.0\%$ during the current measurement period
- Exclusion: None

Eye Exam - Portion of persons in the registry population with a documented retinal or dilated eye exam during the measurement period, or a normal retinal eye exam during the measurement period or in the year prior to the measurement period.

- Denominator: All person in the registry population
- Numerator: At least one of the following:
 - *Retinal Eye Exam* during the measurement period
 - *Normal Retinal Eye Exam* during the measurement period or the year prior
 - *Abnormal Retinal Eye Exam* during the measurement period.
- Exclusion: *Bilateral Blindness* any time prior to the end of the measurement period

Hypertension Registry – Persons aged ≥ 18 during the measurement period meeting the following criteria.

Inclusion Criteria:

- ≥ 18 years as of the last day of the measurement period.
- *Outpatient Visit* during the measurement period or prior two measurement periods.

OR

- *Extended Care Visit* during the measurement period or prior two measurement periods.

AND at least one of the following:

- Active problem of Hypertension
- Diagnosis of hypertension in the past two years

Exclusion Criteria:

- Person is *Deceased* at any time prior to the end of the measurement period.
- Person is in *Hospice Care* during the measurement period.
- *Pregnancy* within 365 days from today's date
- *End Stage Renal Disease* any time prior to the end of the measurement period.
- *Renal Dialysis* any time prior to the end of the measurement period.
- *Renal Transplant* any time prior to the end of the measurement period.

Blood Pressure < 140/90 mm Hg - Portion of persons in the registry population whose most recent blood pressure was controlled during the measurement period.

- Denominator: All person in the registry population
- Numerator: Lowest value(s) of the most recent visit's blood pressure(s) screening(s) is/are:
 - Systolic Blood Pressure value <140 mm Hg
 - Diastolic Blood Pressure value <90 mm Hg
- Exclusion: None

Pediatric Wellness Registry – Persons aged ≥ 0 and < 18 during the measurement period meeting the following criteria.

Inclusion Criteria:

- ≥ 0 and < 18 years as of the last day of the measurement period.
- *Outpatient Visit* during the measurement period or prior two measurement periods.

OR

- *Extended Care Visit* during the measurement period or prior two measurement periods.

Exclusion Criteria:

- Person is *Deceased* any time prior to the end of the measurement period.

Depression Screening – Portion of persons in the registry population screened for clinical depression during the measurement period.

- Denominator: Persons ≥ 12 years of age as of the last day of the measurement period.
- Numerator: Depression Screening during the measurement period
- Exclusion: Person meets at least one of the following:
 - Diagnosis of *Depression* during the measurement period or prior measurement period.
 - Problem of *Bipolar Disorder* at any time prior to the end of the measurement period
