

'Delivering High Quality Care One Patient at a Time'

Inspira Health Partners / Quartet Showcase

Earlier this month, Dr. Chris Trotz, Executive Medical Director of Inspira Medical Group, spoke at the Horizon Value-Based Program Care Coordinator Meeting alongside Dr. David Lim, Chief Medical Officer of Quartet, to share how Inspira Health Partners has made Behavioral Health services more accessible to our primary care providers and patients.

Dr. Lim shared Quartet's plans to expand their services through the summer with a focus on South Jersey. We learned that IHP makes up 10% of onboarded providers in the state and Inspira was recognized for its efficient adoption of the platform across its primary care network.

As of 3/1/19, IHP primary care providers have activated 1,462 referrals as well as a third of Horizon's recommended patients, offering preventive screenings and services to patients considered at risk for behavioral health problems. Quartet's administration has expressed enthusiasm in its partnership with Inspira as we work together to continue to enhance the services we provide for our patients.
