## Horizon Webinar on Telehealth Services

Because the COVID-19 pandemic has increased the use of telehealth for many practices, Horizon would like to support you by conducting a webinar featuring the topics of 1) Understanding the principles and policies of telehealth; 2) Best practices; and 3) Workflows and telehealth beyond COVID-19. The intended audience includes providers, care coordinators, office managers, and quality champions of adult and pediatric practices.

The webinar will take place on June 10 from 12:15-1:15pm. Please see the attached flyer for viewing and call-in options.

## Humana Contract Update

Humana approached Inspira Health Partners last summer regarding a group Medicare Advantage fee schedule in which many practices elected to participate. Over the past several months, many practices have reached out regarding directory issues whereby Humana did not have the IHP practices listed as in-network. This was a global issue at Humana and IHP has been notified that the issues have been resolved. All practices linked to the IHP fee schedule will receive communication regarding the program directly from Humana moving forward—representatives Roy Probst and Joseph White. Please continue to notify me if you encounter challenges with this plan.
