

'Delivering High Quality Care One Patient at a Time'

IHP Board Chair Named

Board managers were installed at the February 24th board meeting. Dr. Gregory Breen was appointed as Chairman for 2021.

Hospital Quality & Efficiency Program Results

Results for the HQEP for its final period, June through December 2019, have been received. Results were delayed due to the need to investigate a variance between calculations from the New Jersey Hospital Association and Inspira's internal cost accounting system. Unfortunately, no savings were achieved at any of the hospitals for this time period. The program has concluded with receipt of these final results. For the performance years 2018 and 2019, \$236,166 was distributed to Vineland physicians, \$26,408 to Elmer physicians, and \$56,309 to Woodbury physicians, for a grand total of \$318,883.

Horizon Shared Savings Program Updates

2020 Performance:

I am pleased to announce that IHP has met the "bonus" level of quality performance for 2020, which required 5 of 8 metrics to be met at the 75th percentile and 4 of 8 metrics to be met at the 90th percentile (percentiles were adjusted for COVID-19). Thank you for your strong performance during an especially challenging year! If shared savings is achieved, Horizon will add an additional 5% into the physician distribution pool.

Total medical expenditure data for claims incurred and paid from January through November 2020 with the member spend cap (\$200k) and risk adjustment factored into the calculation, IHP is trending favorably towards savings. Final savings will be based on claims incurred from January through December 2020 and paid through March 2021. Final results are expected to be received in May 2021.

2020 Physician Distribution Formula

The Board has approved the distribution formula for performance year 2021 as follows:

- Eligible funds will be prorated to primary care practices based on attributed lives
- Measure performance will condition payment to practices as follows, with any dollars not earned redistributed to practices who achieved a 100% score within the quality/citizenship/utilization categories using a proration based on attributed lives :
 - Quality measures condition 50% of the payment
 - Citizenship measures condition 25% of the payment
 - Utilization measures condition 25% of the payment

Details around measures in each category can be found on the website (<http://inspirahealthpartners.com/horizon-alliance-program/> under 2021 Program, Physician Distribution Formula).
